**CHRISTOPHER & BANKS CORPORATION REPORTS
FIRST QUARTER FISCAL 2018 FINANCIAL RESULTS**

- Net Sales of \$85.9 million, Reflecting a Comparable Sales Decrease of 2.6% -
- Gross Margin Rate Decreased 270 basis points -
- Selling, General & Administrative Expenses Decreased by \$1.2 million -

Minneapolis, MN, May 31, 2018 - Christopher & Banks Corporation (NYSE: CBK), a specialty women's apparel retailer, today reported results for the first quarter ended May 5, 2018.

Keri Jones, President and Chief Executive Officer, commented, "Our first quarter financial results did not meet our expectations due in part to underperformance in woven jackets and bottoms, and unseasonable weather, particularly in our Midwest and Northeast regions. However, we saw momentum continue in our eCommerce business as well as in our outlet stores, both of which delivered positive sales comps in the quarter. Sales performance improved as the weather became more seasonal during the latter part of the quarter as customers responded favorably to our product offering. This sales momentum continued into May, resulting in positive comparable sales in the low single digits quarter-to-date."

Ms. Jones continued, "Looking ahead, my key near term priorities will be to enhance her shopping experience with a well-curated merchandise offering; deliver compelling promotions that support our financial goals; leverage our omni-channel capabilities, and attract new customers. We also are continuing to focus on reducing our cost structure. We believe that executing these key priorities will drive comparable sales, improved financial performance and positive cash flow in fiscal 2018. I will also be working with my management team to develop a multi-year strategic plan. Overall, I look forward to leveraging my background in transforming both growth and challenged businesses to support sustainable long term profitable growth."

Results for the First Quarter Ended May 5, 2018

- Net sales totaled \$85.9 million, a decrease of 3.0%, while operating on average 462 stores. This compares to \$88.6 million in net sales for the first quarter of fiscal 2017, while operating on average 479 stores.
- Comparable sales decreased 2.6% following an 8.9% decrease in the same period last year. This included eCommerce sales growth of 7.8% following a 14.7% increase in the same period last year.
- Gross margin rate decreased 270 basis points to 31.8% compared to the same period last year, driven by increased product costs, which have been corrected for the balance of the year, and additional markdowns due to lower than anticipated sales.
- Selling, general & administrative expenses ("SG&A") decreased by \$1.2 million as compared to the first quarter last year, driven by lower store operating expenses, insurance and tax expenses, and net employee compensation expenses, partially offset by increases in professional services and marketing expenses.

- Net loss totaled \$5.3 million, or \$0.14 per share, compared to a net loss for the prior year period of \$3.7 million, or \$ 0.10 per share.
- Adjusted EBITDA^{*}, a non-GAAP measure, was \$(2.2) million, compared to \$(0.2) million for the same period last year.

Balance Sheet Highlights and Capital Expenditures

Cash and cash-equivalents totaled \$18.1 million as of May 5, 2018. Total inventory was \$46.4 million at the end of the first quarter as compared to \$42.1 million at the end of the first quarter last year, an increase of 10.2%. The inventory increase was primarily the result of higher inventory receipts compared to last year to return to more normalized levels, as well as the result of lower than expected sales.

During the quarter the Company completed the sale of and entered into an agreement to leaseback its corporate facility in Plymouth, MN. The purchase price was \$13.7 million and the lease of the facility is for a 15-year period.

Capital expenditures for the first quarter of fiscal 2018 were \$1.0 million compared to \$2.1 million in last year's first quarter. Capital expenditures in the first quarter this year primarily reflected investments in stores and technology associated with the Company's omni-channel capabilities. At the end of the first quarter, the Company had no outstanding borrowings under its revolving credit facility.
